

Standard Warranty Conditions 30KW and Larger

- 1) Start-up (commissioning) must be performed by Atlas Copco or an Authorized Distributor.
- 2) The equipment must be properly installed in accordance with the Atlas Copco installation proposal and instruction manuals.
- 3) The machine registration must be completed and returned within 30 days of start-up.
- 4) The machine has to be maintained and serviced according to the service schedule found in the instruction book.
- 5) Service intervals must be performed by Atlas Copco, an Authorized Distributor, or an **approved customer technician**.
 - On compressors larger than 30 kw to qualify for a standard or 5 year extended warranty a factory trained technician must complete all service work.
- 6) Only Atlas Copco genuine parts and lubricants can be used on the machine.
- 7) All claims to be filed in a timely manner; 30 days is considered normal.
