

### 60 Gallon Two Stage - Cast Iron - Industrial

#### FEATURES & BENEFITS

- Industrial performance delivers maximum CFM @ 175 PSI; provides enough power to operate more than one air tool or device at one time
- **Low pump RPM for longer life**
- Patented Pump Design Provides for a Cooler Running Pump !
  - Industrial style air intake filter
  - Easily accessible oil level sight glass and oil drain with 4" extension
- Electric motor with thermal overload protection
  - Protects the motor from voltage fluctuations
  - Magnetic starter not required
- Large capacity, 60 gallon ASME\* air receiver
  - Large 3/4" air outlet port
- Equipped with tank pressure gauge and on/off switch
- Wire form belt guard improves compressor cooling
- Four tie down holes in platform for ease in transporting
- Shipped with synthetic blend air compressor oil for optimum performance and long life

#### MODEL SPECIFICATIONS

Tank Size:	60 Gallon ASME*
Maximum Pressure:	175 PSI
CFM @ 100 PSI:	15.3
CFM @ 175 PSI:	13.5
Pump RPM:	767
Voltage:	230 Volt
Phase:	Single
Running HP:	5.0
Warranty:	2 Year Limited

See Page 2  
for  
Additional  
Pump  
Features

Dimensions: 40" x 31" x 80" • Weight: 424 lbs. • UPC: 8 46212 05770 4 • Pallet Qty: 1 • Truckload Qty: 42 (53' trailer)

\*ASME - American Society of Mechanical Engineers Product style and configuration may vary.

MODEL: IV5076055

### 5 HP - Cast Iron - Two Stage Industrial Pump Features

- 1) Six free-floating stainless steel reed valves with stop guides for controlled lift
- 2) Four rings per piston for improved volumetric efficiencies and oil control
- 3) **Patented** piston design for improved compression efficiency
- 4) Extended height high efficiency breather
- 5) Large easy view oil level sight glass eliminates guesswork
- 6) Automotive type, one-piece, counter-balanced crankshaft for smooth, trouble free operation
- 7) Oversized industrial-grade bearings for extended pump life
- 8) Splash lubrication for complete lubrication of all working parts
- 9) Automotive style connecting rods with precision inserts for long life
  - Two piece connecting rod with oil control feature provides full lubrication
- 10) Industrial grade metal intake filter/silencer with five sound attenuation baffles and automotive style replaceable filter element
- 11) Cast iron cylinder head with **patented** deep-groove directional cooling fins.
- 12) Precision bored cylinders with **patented** asymmetrical cooling fins
- 13) **Patented** cast iron flywheel design with large extended fins for improved cooling of pump and low pump RPM
- 14) High efficiency finned copper intercooler reduces inter-stage air temperatures for maximum performance and increased valve life
- 15) Extra capacity oil reservoir ensures lower oil temperatures for longer life
- 16) Cast iron construction for durability, dependability, and smooth operation
