

# **Safety Data Sheet**

### Synthetic Compressor Oil

## Section 1. Product and company identification

Date : 07/25/2016

Version : 4

Product name Code
Synthetic Compressor Oil SCO

**Material uses** 

Lubricating Fluid. Not to be misted.

Supplier/Manufacturer In case of emergency

Oasis Manufacturing
23011 Alclade Dr Ste P
Laguna Hills, CA 92653

CHEMTREC, U.S.: 1-800-424-9300
International: +1-703-527-3887

## Section 2. Hazards identification

### **Emergency overview**

Color : Amber.

Physical state : Liquid. [Fluid.]

Odor : Mild hydrocarbon.

Hazard statements : NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN

THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.

Precautions: No known significant effects or critical hazards. Avoid prolonged contact with eyes, skin

and clothing.

OSHA/HCS status : While this material is not considered hazardous by the OSHA Hazard Communication

Standard (29 CFR 1910.1200), this MSDS contains valuable information critical to the

safe handling and proper use of the product. This MSDS should be retained and

available for employees and other users of this product.

Routes of entry : Dermal contact. Eye contact. Inhalation. Ingestion.

Potential acute health effects

Inhalation : No known significant effects or critical hazards.
 Ingestion : No known significant effects or critical hazards.
 Skin : No known significant effects or critical hazards.
 Eyes : No known significant effects or critical hazards.

Potential chronic health effects

Chronic effects
 No known significant effects or critical hazards.
 Carcinogenicity
 No known significant effects or critical hazards.
 Mutagenicity
 No known significant effects or critical hazards.
 Teratogenicity
 No known significant effects or critical hazards.
 Developmental effects
 No known significant effects or critical hazards.
 Fertility effects
 No known significant effects or critical hazards.

Over-exposure signs/symptoms

Inhalation : No specific data.

**1/7 Date of issue** : 07/25/2016

Ingestion : No specific data.

Skin : No specific data.

Eyes : No specific data.

Medical conditions : None known.

aggravated by overexposure

See toxicological information (Section 11)

# Section 3. Composition/information on ingredients

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

### Section 4. First aid measures

**Eye contact** : Immediately flush eyes with plenty of water for at least 20 minutes, occasionally lifting the upper and lower eyelids. Get medical attention if symptoms occur.

**Skin contact**: After contact with skin, wash immediately with plenty of soap and water. Get medical

attention if symptoms occur.

Inhalation : Move exposed person to fresh air. Get medical attention if symptoms occur.

Ingestion : Wash out mouth with water. Do not induce vomiting unless directed to do so by medical

personnel. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

attention if symptoms occur.

Notes to physician : No specific treatment. Treat symptomatically. Contact poison treatment specialist

immediately if large quantities have been ingested or inhaled.

# Section 5. Fire-fighting measures

**Flammability of the product**: No specific fire or explosion hazard.

**Extinguishing media** 

products

Suitable : Use an extinguishing agent suitable for the surrounding fire.

Not suitable : None known.

**Hazardous decomposition**: Decomposition products may include the following materials:

carbon dioxide carbon monoxide

**Special protective** : No special protection is required. **equipment for fire-fighters** 

**2/7 Date of issue** : 07/25/2016

### Section 6. Accidental release measures

### **Personal precautions**

### **Environmental precautions**

### : Put on appropriate personal protective equipment (see Section 8).

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### Methods for cleaning up

Small spill

Large spill

- : Absorb with an inert dry material and place in an appropriate waste disposal container. Dispose via a licensed waste disposal contractor.
- : Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

# Section 7. Handling and storage

### **Handling**

: Put on appropriate personal protective equipment (see Section 8). Avoid contact with used product. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Do not reuse container.

#### **Storage**

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

# Section 8. Exposure controls/personal protection

Under conditions which may generate mists, the following exposure limits are recommended: ACGIH TLV TWA: 5 mg/m3; STEL: 10 mg/m3.

Consult local authorities for acceptable exposure limits.

procedures

Recommended monitoring: Personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

**Engineering measures** 

: No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period.

Respiratory

Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Not required under normal conditions of use.

> 3/7 **Date of issue** : 07/25/2016

Hands : Not required under normal conditions of use. Use gloves appropriate for work or task

being performed.

Eyes: Not required under normal conditions of use. Safety eyewear should be used when there is a likelihood of exposure. Recommended: Safety glasses with side shields.

**Skin**: No special protective clothing is required.

**Environmental exposure** 

controls

Emissions from ventilation or work process equipment should be checked to ensure

temperature

Solubility

: Not available.

they comply with the requirements of environmental protection legislation.

## Section 9. Physical and chemical properties

Physical state: Liquid. [Fluid.]Odor: Mild hydrocarbon.Color: Amber.pH: Not available.

Flash point : Open cup: 248 to 258°C (478.4 to 496.4°F) Auto-ignition : Not available.

Flammable limits : Not available. Melting point/ : -42 to -31°C (-43.6 to -23.8°F)

Pour point

Boiling point: Not available.Vapor pressure: Not available.Relative density: 0.9254 to 0.9427Vapor density: Not available.Volatility: Not available.Evaporation rate: Not available.

Viscosity : Kinematic: 0.095 to 0.139 cm<sup>2</sup>/s (9.5 to 13.9

cSt) (100°C)

[Cleveland.]

Kinematic: 0.692 to 1.503 cm<sup>2</sup>/s (69.2 to 150.

: No specific data.

3 cSt) (40°C)

## Section 10. Stability and reactivity

**Chemical stability** : The product is stable.

Materials to avoid : Reactive or incompatible with the following materials: oxidizing materials.

Hazardous decomposition : Under normal conditions of storage and use hazardous decomposition productions

**Hazardous decomposition**: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

rouucts not be produced.

**Possibility of hazardous**: Under normal conditions of storage and use, hazardous reactions will not occur. reactions

**Hazardous polymerization**: Under normal conditions of storage and use, hazardous polymerization will not occur.

# **Section 11. Toxicological information**

#### **Acute toxicity**

**Conditions to avoid** 

There is no data available.

#### **Chronic toxicity**

There is no data available.

**4/7 Date of issue** : 07/25/2016

### **Irritation/Corrosion**

Skin Eyes: There is no data available.Respiratory: There is no data available.Sensitizer: There is no data available.

Skin

Respiratory : There is no data available.

Carcinogenicity : There is no data available.

There is no data available.

### **Mutagenicity**

There is no data available.

#### **Teratogenicity**

There is no data available.

### Reproductive toxicity

There is no data available.

# Section 12. Ecological information

**Ecotoxicity** 

: No known significant effects or critical hazards.

#### **Aquatic ecotoxicity**

There is no data available.

### Persistence/degradability

There is no data available.

## Section 13. Disposal considerations

#### Waste disposal

: The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Empty containers or liners may retain some product residues. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

# **Section 14. Transport information**

DOT/TDG/IMDG/IATA

: Not regulated.

## Section 15. Regulatory information

**United States** 

HCS Classification : Not regulated.

U.S. Federal regulations : United States inventory (TSCA 8b): All components are listed or exempted.

SARA 302/304: No products were found.

SARA 311/312 Hazards identification: Immediate (acute) health hazard

Clean Air Act Section 112 : Not listed

(b) Hazardous Air Pollutants (HAPs)

Clean Air Act Section 602 : Not listed

**Class I Substances** 

Clean Air Act Section 602 : Not listed

**Class II Substances** 

**DEA List I Chemicals** 

(Precursor Chemicals)

: Not listed

**DEA List II Chemicals** 

: Not listed

(Essential Chemicals)

State regulations

Massachusetts: None of the components are listed.New York: None of the components are listed.New Jersey: None of the components are listed.Pennsylvania: None of the components are listed.

California Prop. 65

No products were found.

Canada

WHMIS (Canada) : Not controlled under WHMIS (Canada).

**Canadian lists** 

Canadian NPRI : None of the components are listed.
CEPA Toxic substances : None of the components are listed.
Canada inventory : All components are listed or exempted.

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

### Section 16. Other information

### **United States**

Label requirements : NOT EXPECTED TO PRODUCE SIGNIFICANT ADVERSE HEALTH EFFECTS WHEN

THE RECOMMENDED INSTRUCTIONS FOR USE ARE FOLLOWED.

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on MSDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
