

Ultra Coolant Lubricant

Ultra Coolant is an engineered polyglycol based coolant designed to achieve peak compressor performance for contact cooled rotary screw air compressors - even at the highest temperatures. Ultra Coolant's unique formulation allows for long life, excellent cooling performance, and improved compressor efficiency. Unlike typical petroleum coolants, Ultra Coolant offers high thermal conductivity to extend the life of your compressor, its parts and even the coolant itself.

Features

Ultra Coolant is the industry's leading lubricant, specifically designed to help rotary screw compressors maintain peak performance at a full range of temperatures, minimizing operating costs and environmental impact.

- **Up to 8,000 hours of lubricant run time**, longer life than most poly-alpha-olefins (PAOs), and as much as 8 times the life of conventional lubricants
- **Non-foaming performance** significantly lowers carryover as compared to conventional and other synthetic fluids, reducing contamination
- **Varnish free operation** saves energy, and extends the reliability and life of your system
- **10% higher thermal conductivity** extends compressor life and improves efficiency
- **High flash point of 271 °C (520 °F)**, higher than most poly-alpha-olefins (PAOs), diesters and other synthetic lubricants, enhances operational safety
- **Advanced cooling** enables compressors to run cooler and more efficiently, even in high-ambient temperature environments
- **Excellent biodegradability** and recyclability

AFTER 8,000 HOURS...

Model Specifications

Bottle Size	OEM Part #
1 liter (0.3 gallons)	Part # 92837095
5 liters (1.2 gallons)	Part # 92692284
20 liters (5.28 gallons)	Part # 38459582
208 liters (55 gallons)	Part # 39433743

About Ingersoll Rand Inc. Ingersoll Rand Inc. (NYSE:IR), driven by an entrepreneurial spirit and ownership mindset, is dedicated to helping make life better for our employees, customers and communities. Customers lean on us for our technology-driven excellence in mission-critical flow creation and industrial solutions across 40+ respected brands where our products and services excel in the most complex and harsh conditions. Our employees develop customers for life through their daily commitment to expertise, productivity and efficiency. For more information, visit www.IRCO.com.
