

13hp V-4 Premium Gas Powered

Since 1977

Energy efficiency & MAXimum performance

KEY FEATURES

- Quiet , Low RPM Solid Cast Iron construction for extended life- up to 50,000 hours

- All Steel Rebuildable Connecting Rods with Disc Valves for easy maintenance & long Durability

- Flow-Tek Concentric Disc Valves for Maximum Performance & longevity
- Pull Start Honda Engine GX390

- **Cool-Tek:** Coolest running compressors in the industry – 35% lower operating temperature reduces moisture build up & extends pump life
- **Belt Tension Adjuster:** Fast, Easy “one turn” way to tighten belts which reduces vibration and extends belt life

Running HP	13
SCFM @ 175	26
SCFM @ 100	29
Pump RPM	640
Max PSI	175
Engine RPM	3200
Weight	720
Dimensions W x H x D	55x27x43
Fuel Tank	1 Gallon
Pump Type	APP4V1043T

- 5 year limited warranty on oil-lubricated air compressor pump and tank
- 2 YR- Limited warranty on all air compressor components
