

100% Full Synthetic Air Compressor Oil

FEATURES AND BENEFITS

- Starts **10°** colder than synthetic blend compressor oils
- **25%** increased wear protection over synthetic blend oil results in extended life of the compressor pump
- Performs **50%** better at 0° F (-18° C) than standard air compressor oil
- All Season Performance - High VI (Viscosity Index) means better performance in a wide pump operating temperature range over conventional mineral oils
 - Easy starting in low temps – resistance to thickening at low temps (remains in a fluid state in temps less than -30° F)
 - Better performance and protection at high temps – resistance to thinning at higher temperatures compared to conventional mineral oils.
- Flash Point: 460° F (238° C)
- Pour Point: -40° F (-40° C)

NEW

**EXTREME
DUTY**

Made in the USA
MODEL: P018-0084SP

Dimensions: 4" x 2.5" x 8.74" • Weight: 2 lbs. • UPC: 8 4621204025 6

Inner Pack Quantity: 6 Product style and configuration may vary.

100% Full Synthetic Air Compressor Oil - continued

FEATURES AND BENEFITS

- Thermo-oxidative stability – resistance to premature degradation and shearing which occurs at high operating temperatures
- Reduced volatility so there is less consumption
- Helps protect the pump from loss of performance
- Full synthetic oil provides extended life by keeping the pistons and valves cleaner preventing carbon build up
