5. FIRE FIGHTING MEASURES

General Fire Hazards : No unusual fire or explosion hazards noted.

Suitable (and unsuitable) extinguishing media

Suitable extinguishing media

: CO2, dry chemical, foam, water spray, water fog.

Unsuitable extinguishing media

: Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical

:

A solid stream of water will spread the burning material. Material creates a special hazard because it floats on water. See section 10 for additional information. Water may cause splattering.

Special protective equipment and precautions for firefighters Special firefighting procedures

 - No data available.

Special protective equipment for fire-fighters

: Wear full protective firegear including self-containing breathing apparatus operated in the positive pressure mode with full facepiece, coat, pants, gloves and boots.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Ventilate closed spaces before entering them. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep upwind. Keep unauthorized personnel away. See Section 8 of the SDS for Personal Protective Equipment.

Methods and material for containment and cleaning up

Dike far ahead of larger spill for later recovery and disposal. Pick up free liquid for recycle and/or disposal. Residual liquid can be absorbed on inert material. Stop the flow of material, if this is without risk. Prevent entry into waterways, sewer, basements or confined areas.

Environmental Precautions

: Avoid release to the environment. Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.

7. HANDLING AND STORAGE

Precautions for safe handling

Do not handle until all safety precautions have been read and understood. Obtain special instructions before use. Do not breathe dust/fume/gas/mist/vapors/spray. Do not get in eyes. Avoid contact with eyes, skin, and clothing. Observe good industrial hygiene practices. Use only in well-ventilated areas. Use personal protective equipment as required. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Contaminated work clothing should not be allowed out of the workplace. Launder contaminated clothing before reuse. Avoid environmental contamination.

Maximum Handling Temperature

Not determined.

Conditions for safe storage, including any incompatibilities

:

: Keep container tightly closed. Store in a well-ventilated place.

Maximum Storage Temperature

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control Parameters

Occupational Exposure Limits

: None of the components have assigned exposure limits.

Appropriate engineering controls				
	:	No special requirements under ordinary conditions of use and with adequate ventilation.		
Individual protection me	easi	ires, such as personal protective equipment		
General information	:	Provide easy access to water supply and eye wash facilities. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.		
Eye/face protection	:	Safety glasses. If potential for splash or mist exists, wear chemical goggles or faceshield.		
Skin Protection				
Hand Protection	:	Suitable gloves can be recommended by the glove supplier. Nitrile.		
Other	:	Wear apron or protective clothing in case of contact.		
Respiratory Protection	:	A respiratory protection program compliant with all applicable regulations must be followed whenever workplace conditions require the use of a respirator. Use respirator with a combination organic vapor and high efficiency filter cartridge if recommended exposure limit is exceeded. Use self-contained breathing apparatus for entry into confined space, for other poorly ventilated areas and for large spill clean-up sites.		
Hygiene measures	:	Do not handle until all safety precautions have been read and understood. Obtain special instructions before use. Observe good industrial hygiene practices. Do not breathe dust/fume/gas/mist/vapors/spray. Do not eat, drink or smoke when using the product. Do not get in eyes. Avoid contact with skin. Wash hands before breaks and immediately after handling the product. Wash hands after handling.
